

Popular Language Learning Websites

This is the third webinar in the series of monthly professional development events for volunteer e-Tutors. The main goal of the series is to increase e-tutors' online teaching skills by providing more in-depth introduction to online tools for language teaching and learning and discussing creative use of those tools, covering both technological and pedagogical aspects. The webinar was recorded:

Friday, September 20 <http://myenglishonline.wiziq.com/online-class/1392902-popular-language-learning-website>

Saturday, September 21 <http://myenglishonline.wiziq.com/online-class/1392908-popular-language-learning-website>

Objectives:

- explore free websites for language learning;
- see how to use these websites to work on learners' pronunciation, listening, speaking, reading and writing skills and to enrich learners' vocabulary.

Many excellent resources for EAL teachers and learners exist online, from full-service websites to reference tools and communities like Tutela.ca, all designed to make the task of educating EAL students just a little bit easier and more effective.

The chart below contains links to the websites presented at the webinar and to the online resources introduced by the participants of both sessions of the webinar. You can use these resources for your F2F and online classes.

Flip your lessons!

Share links with your learners in advance and suggest some extension activities at your lesson.
